C00113	Political / Price Narratives to manipulate public perception by creating artificial 'relief' through small fuel price drops after major hikes, undermining trust.			f r all [r f	Transparent and accountable fuel pricing that reflects real reform, not staged optics. What Could Go Wrong? Citizens may continue to fall for superficial changes, delaying real policy accountability.					without pro	Fuel price rose to 1000 without protest; a small drop sparks praise, showing manipulation works.			Drive civic awareness campaigns and track price narratives through structured public concern tools.
