

Risk ID	Category / Element	Risk Short Title	Description	Desired Outcome	Current Situation	Proposed Strategy
C00228 □	M2 Project Organisation	Parent education program rollout	A core pillar of the Arini Method is that learning is co-created between children, educators, and parents. The Parent Education Program in Phase 2 (Months 7–9) aims to equip parents with values-based language, strategies, and understanding that support their child’s natural development beyond the classroom. There is a concern about how well-prepared, accessible, and embraced the Parent Education rollout will be across pilot locations.	Empower parents to reinforce Arini values at home via structured training What Could Go Wrong? Low parental engagement may weaken the learning environment	Workshops and support groups are planned but lack clear scheduling	Develop a parent education calendar and start awareness campaigns early
