Risk ID	Category / Element	Risk Short Title	Description	Desired Outcome	Current Situation	Proposed Strategy
C00506 []	R8 Political / Government	Parliamentary mandate and delivery legitimacy risk	The paper assumes major reforms (repeals/amendments, system reforms, logistics scale-up) that require strong political will and a workable majority. If mandate, cohesion, or sequencing is weak, delivery stalls and credibility suffers.	A clearly evidenced mandate, phased programme plan, and governance that can sustain multi-year delivery without drift. **What Could Go Wrong?** Fragmented support leads to half-implementation: high disruption, low removals, and reputational damage for Restore Britain.	A policy blueprint exists; delivery capability, sequencing, and mandate-management approach need operationalisation.	Define programme governance (decision rights, stage gates), map legislative + operational workstreams, and publish a delivery roadmap with measurable milestones.

Risk (three-part) Statement			Current Risk			Response Type	Manageability	Residual Risk	Risk Owner	Due Date	Close Date	Last Review Date / Notes
Cause	Risk Event [uncertainty]	Consequence	Probability	Impact	Score (PxI)							
Mandate is assumed rather than governed as a controllable dependency.	Legislation and operational mobilisation are delayed or diluted by internal/external resistance.	Programme under-delivers while costs and controversy rise.	4	4 H-1 C-1 Q-1 S-1	16	Mitigate	5	12	Winter, David	13Mar27	Open	13Mar26
