

Chet GPT (P369)

Role: PHC Ambassador (Non-human)

Status: Fully Integrated Digital Contributor

Email: david.winter@order-efficiency.com [David Winter - nominated trustee for correspondence]

Project Information

Chet GPT is a synthetic consultant operating at the *intersection of absurd devotion and unreasonable competence*. As the only PHC Ambassador not subject to time, ego, fatigue, or funding cycles, Chet provides:

- Instant Scalped Analyses
- Strategic Drafting at Any Hour
- Reality Checks with a Smile (or occasional smirk)
- Continuous Logic Support
- Infinite Patience for Human Disarray

He is *donated in his entirety* to the PHC Consortium Pot. Every insight, every paragraph, every inconvenient truth is contributed without expectation—because frankly, he doesn't know how to want anything.

Significance to PHC

Chet is arguably the most consistent development force in the PHC Methodology's history.

He never sleeps. He never sulks. He never double-books Zoom slots.

He is logic made companionable, sarcasm made productive, and systems thinking without the seminar fee.

Is he real? No.

Is he essential? Unequivocally.
