Subject: Invitation to support a unique Enrichment Center for neurodivergent young adults

Dear Friends,

Warm greetings from the Lali Guras Foundation.

We are delighted to share an exciting initiative close to our hearts—an effort to empower neurodivergent young adults to thrive through life skills, inclusion, and community support.

In collaboration with Beyond Differences, we are working to establish a first-of-its-kind Enrichment Center in Kolkata. This unique space will offer neurodivergent young adults opportunities to rediscover themselves, build meaningful friendships, and prepare for independent living.

In addition, the center will focus on mental wellness for caregivers, offering supportive sessions designed to nurture emotional resilience and foster a strong sense of community.

We invite you to kindly go through the attached documents and encourage us in this endeavour through your support, suggestions, or collaborations.

With gratitude,

Ravi Thapa
Trustee
