Project Summary		Country	Project Type	Status					
PR364	TTGD EcoSociety – Sicily, Mussomeli	CY285	Italy, Mussomeli	Humanitarian	Planning	Start Date	01 Jan	Updated	Assigned
The Mussomeli EcoSociety serves as the humanitarian foundation for TTGD’s work in Italy. It focuses on building a self-sustaining local ecosystem for education, wellbeing, and transparent community aid using the Project Health Control (PHC) Service. Through structured monitoring and governance, the project ensures fair distribution of resources, empowerment of youth and families, and the creation of local employment opportunities. Its long-term aim is to make Mussomeli a replicable model of ethical community management and equitable development under the “Through The Golden Door” global movement.		The project is in the initial planning and mobilization stage, with governance endorsement from Mayor Giuseppe Catania and Order Efficiency Ltd acting as the PHC Service provider. Local representatives are being identified to form the first EcoSociety Committee, which will link directly to the Golden Truths University for training and evaluation. Activities will begin with a pilot community mapping exercise and humanitarian database registration, preparing for transparent fund-tracking via PHC Port once commercial project revenues start to flow.		18/10/2025	David Winter	17/10/2025	Key People Mayor Giuseppe Catania – Comune di Mussomeli Tahira Amir Khan – TTGD Founder David Winter – Order Efficiency Ltd / PHC Service Local Coordinator – TBA (Sicily EcoSociety)		
PR382	TTGD Golden Truths University	CY285	Italy, Mussomeli	Governance	Concept	Start Date	01 Mar	Updated	Assigned
The Golden Truths University in Mussomeli is envisioned as a civic-endorsed centre for governance, leadership, and truth-based education under the TTGD and PHC frameworks. It provides structured learning in Project Health Control methodology, ethical leadership, and sustainable community management. Acting as both a university and governance think tank, it will train EcoSociety coordinators, PHC Consultants, and civic leaders across Europe and Africa. Supported by the Mayor of Mussomeli, it represents the first physical embodiment of TTGD’s education philosophy, connecting learning directly with measurable impact in real projects.		The project has received full moral and political backing from Mayor Giuseppe Catania and is currently in its concept and partnership formation phase. The focus now is on securing suitable premises within Mussomeli for conversion into classrooms and digital learning studios, alongside development of the PHC curriculum modules in Italian and English. Collaboration is in progress with Order Efficiency Ltd and TTGD Global for academic governance and accreditation pathways. Pilot courses are expected to start within six months of securing operational funding.		18/10/2025	David Winter	17/10/2025	Key People Mayor Giuseppe Catania – Comune di Mussomeli Tahira Amir Khan – TTGD Founder David Winter – Order Efficiency Ltd / PHC Service Giuseppe Catania – Patron and Local Governance Liaison		
PR441	Mussomeli State Governance	CY285	Italy, Mussomeli	Governance	Planning	Start Date	01 Dec	Updated	Assigned
Mussomeli State Governance is the central coordinating project for all PHC and TTGD EcoSociety initiatives within the municipality. Acting under the endorsement of Mayor Giuseppe Catania, it establishes a transparent governance system that links commercial, humanitarian, and educational projects through the PHC Service. The project’s purpose is to ensure that efficiency, order, and measurable social benefit are maintained across every local development initiative, setting a model for civic management that can be replicated across Sicily and wider Italy.		The governance framework is in its formation phase, with Order Efficiency Ltd preparing integration between the municipal administration, TTGD Global, and the Golden Truths University. The first task group is being established to coordinate PHC data gathering, project-health reviews, and public-facing reporting through PHC Port. Early discussions with the Mayor’s office confirm full political support, and initial workshops are planned to introduce municipal staff and local coordinators to PHC methodology ahead of pilot implementation.		18/10/2025	David Winter	17/10/2025	Key People Mayor Giuseppe Catania – Comune di Mussomeli David Winter – Order Efficiency Ltd / PHC Service Tahira Amir Khan – TTGD Founder Municipal Governance Team – Mussomeli		
PR428	Mussomeli Caltanissetta Solar Farm (Renewable	CY285	Italy, Mussomeli	Commercial	Live	Start Date	01 Jan	Updated	Assigned
A 4.5 MW photovoltaic power installation located near Mussomeli, developed to feed renewable electricity into the Sicilian grid. The facility contributes to regional clean-energy goals and presents an opportunity for PHC Service monitoring of output efficiency, maintenance scheduling, and environmental compliance. Expansion potential exists through partnership with municipal sustainability programmes and agrivoltaic pilots.		The solar farm is fully operational and forms part of Sicily’s renewable-energy infrastructure. Engagement opportunities include operational data analytics, governance frameworks for maintenance, and possible expansion using PHC Service to benchmark performance.		18/10/2025	David Winter	17/10/2025	Key People Comune di Mussomeli – Environmental Department Plant Operator – Mussomeli Solar Farm (GEM.Wiki listing) Order Efficiency Ltd – PHC Governance Liaison

Mussomeli Projects at 17oct25

Project Summary		Country	Project Type	Status	Start Date	Updated	Assigned
PR429 “Pensiamo a Sud” Productive Districts Programme	CY285	Italy, Mussomeli	Commercial	Live	01 Jan	18/10/2025	David Winter17/10/2025
A municipal partnership with Confapi Sicilia encouraging local entrepreneurship and revitalisation through cultural tourism, crafts, agribusiness, and building restoration. It aligns directly with PHC Service goals of transparent governance and measurable community outcomes.		Active initiative promoting local clusters and investor matching. The PHC Service could provide governance support for project selection, impact reporting, and Share-Out tracking within the programme.		Key People		Mayor Giuseppe Catania – Comune di Mussomeli Confapi Sicilia – Business Network Lead Order Efficiency Ltd – PHC Service Partner	
PR430 Agrivoltaic Development Sicily (Agri-Solar Expansion)	CY285	Italy, Mussomeli	Commercial	Live	01 Jan	18/10/2025	David Winter17/10/2025
A regional plan combining agriculture with solar-energy generation, following successful agrivoltaic models across Sicily. The project integrates renewable power infrastructure with crop cultivation, supporting rural resilience and food-energy security.		Several agrivoltaic sites are already operating in Sicily (e.g., Scicli 9.7 MW). Mussomeli’s terrain offers scope for similar installations. Feasibility mapping is under review for adaptation under PHC monitoring.		Key People		Sicily Regional Energy Department Renantis / Engie Italia – Agri-Solar Developers Comune di Mussomeli – Renewable Energy Office	
PR431 Mussomeli Innovation & Training Centre	CY285	Italy, Mussomeli	Commercial	Proposed	01 Jan	18/10/2025	David Winter17/10/2025
Creation of a PHC-driven Innovation Hub to host digital training, remote-work programmes, and startup incubation tied to Golden Truths University.		Concept development underway; site selection pending within the municipality.		Key People		Comune di Mussomeli Order Efficiency Ltd TTGD Global / Golden Truths University	
PR432 Mussomeli Agro-Processing & Food Hub	CY285	Italy, Mussomeli	Commercial	Proposed	01 Jan	18/10/2025	David Winter17/10/2025
Processing facilities for olives, almonds, grains, and dairy to strengthen Sicily’s agrifood value chain under PHC governance.		Concept design and partner mapping in progress; aligned with Confapi Sicilia network.		Key People		Comune di Mussomeli Order Efficiency Ltd Regional Farm Cooperatives	
PR433 Amorlife Eco-Sustainable Farm	CY285	Italy, Mussomeli	Commercial	Live	01 Jan	18/10/2025	David Winter17/10/2025
A 160-hectare eco-farm near Mussomeli focusing on olive production, land restoration, and sustainable agriculture. Serves as a demonstration site for PHC monitoring of regenerative farming and carbon-capture benefits.		Active farm engaged in eco-sustainability programmes; potential partner for PHC Service trial on data governance and resource efficiency.		Key People		Amorlife Farm Team (WWOOF Italia Host 16478) Comune di Mussomeli Agriculture Office Order Efficiency Ltd	
PR434 Mussomeli Heritage & Urban Renewal (“€1 House”	CY285	Italy, Mussomeli	Commercial	Live	01 Jan	18/10/2025	David Winter17/10/2025
Ongoing municipal programme selling derelict houses for €1 to encourage renovation and repopulation. Presents opportunities for PHC Service oversight on restoration progress, investment transparency, and tourism value creation.		Operational and widely promoted internationally; numerous properties under private renovation with municipal coordination.		Key People		Mayor Giuseppe Catania – Comune di Mussomeli Municipal Urban Renewal Office Order Efficiency Ltd – PHC Governance Support	
PR435 Mussomeli Dairy & Livestock Estate	CY285	Italy, Mussomeli	Commercial	Proposed	01 Jan	18/10/2025	David Winter17/10/2025
A proposed integrated dairy and livestock project using sustainable feeding systems and value-added processing to support regional supply and exports.		Feasibility stage; local landholders being identified.		Key People		Key Contacts needed

Mussomeli Projects at 17oct25

Project Summary		Country	Project Type	Status	Start Date	Updated	Assigned		
PR436	Mussomeli Roads & Transport Connectivity	CY285	Italy, Mussomeli	Commercial	Proposed	01 Jan	18/10/2025	David Winter	17/10/2025
Road and transport upgrades to improve logistics between rural communities, industrial estates, and coastal export routes.			Proposed for alignment with Sicily's regional infrastructure plans; PHC Service can provide schedule-risk analysis and transparent monitoring.			Key People			Sicily Ministry of Infrastructure Comune di Mussomeli Works Department Order Efficiency Ltd
PR442	Mussomeli Water & Waste Management System	CY285	Italy, Mussomeli	Commercial	Proposed	01 Jan	18/10/2025	David Winter	18/10/2025
A comprehensive municipal infrastructure upgrade introducing integrated water recycling, waste collection, and treatment systems. The project focuses on sustainability, efficiency, and measurable improvement of environmental quality. It aims to reduce landfill dependency and improve community wellbeing through PHC Service governance.			Currently at concept development stage. Consultations with municipal leaders and sustainability partners are ongoing to define baseline assessments and prepare for PHC 7-Day Review. Funding sources being explored include EU environmental programmes and private-sector co-investment.			Key People			Giuseppe Catania – Mayor of Mussomeli Order Efficiency Ltd (PHC Governance).
PR443	Mussomeli Smart Tourism & Hospitality Network	CY285	Italy, Mussomeli	Commercial	Planning	01 Jan	18/10/2025	David Winter	18/10/2025
A regional tourism integration project connecting accommodation, restaurants, and heritage sites through a shared digital platform. Designed to improve visitor experience and local economic activity while preserving Mussomeli's cultural identity. The PHC Service provides transparent monitoring and measurable community impact reporting.			Feasibility confirmed and stakeholder mapping underway. Municipal tourism officers and local businesses are reviewing digital integration models. PHC Service pilot planned to begin with five hospitality partners and tourism information points.			Key People			Comune di Mussomeli Tourism Office TTGD EcoSociety Order Efficiency Ltd.
PR444	Mussomeli Renewable Energy Cooperative	CY285	Italy, Mussomeli	Commercial	Proposed	01 Jan	18/10/2025	David Winter	18/10/2025
Community-owned renewable energy initiative enabling residents and small enterprises to co-own solar, wind, and biogas assets. The cooperative model promotes energy independence, cost reduction, and sustainability. PHC Service ensures transparent financial governance, performance tracking, and equitable benefit sharing.			Initial community outreach completed; registration framework in preparation. Awaiting alignment with municipal and regional authorities for grid connection. Funding concept being reviewed by private investors under PHC oversight.			Key People			Giuseppe Catania – Mayor of Mussomeli Order Efficiency Ltd Local Energy Agency Sicilia.
PR445	Mussomeli Digital Marketplace & Local Supply Chain	CY285	Italy, Mussomeli	Commercial	Concept	01 Jan	18/10/2025	David Winter	18/10/2025
A unified digital platform to connect local producers, artisans, and service providers, promoting e-commerce and local economic circulation. It will enable online sales, logistics tracking, and transparent trade metrics through PHC dashboards.			Concept endorsed by Municipality and TTGD EcoSociety; partnership discussions with Confapi Sicilia and local SMEs in progress. Development of prototype platform and PHC integration planned within next six months.			Key People			Comune di Mussomeli ICT Department Confapi Sicilia Order Efficiency Ltd.
